Instructions for Use

The first section (or block) is for office staff use – please do not write in it.

The second section or block (labeled “Contact Information”) gives us the information we need to let you know the resolution of your issue. Please let us know the best way to reach you and if you have any preferences (i.e., best to call after 6:00 p.m.). While this information is part of a formal process that is a public record (which means it is available to the general public – which in turn means it is possible that the owner or operator of a public accommodation that you are raising a concern with has the right to know their “accuser”), your contacting us does not make you the actual “complainant”, in that you are simply raising a concern that the most appropriate authority having jurisdiction will investigate. In short, we will be the “complainant” – not you.

The third section or block (labeled “Issue Information”) gives us the location of the issue or concern. Please give us the location of the issue or concern – as much as you know, and if you don’t know, just leave it blank.

The fourth section or block gives us a description of the issue or concern. Please describe your issue/concern as best you can, and please feel free to attach any additional written information, sketches or photographs you feel appropriate.

The fifth and sixth sections or blocks (labeled “Action(s) Taken” and “Disposition”) are for office staff use – please do not write in them.

We thank you for your concern, time and effort. We will review your issue in a timely fashion and the appropriate authority will advise you of the outcome as soon as possible and as is appropriate.
