East Hampton Airport Offers New Parking App

East Hampton Airport Introduces Passport Mobile App to Parkers

Wainscott, NY- East Hampton Airport parking is going mobile with the launch of the new Passport mobile app.

The airport is offering Passport, the leading provider of mobile payments for parking and transit, at all airport parking spaces beginning Wednesday, November 23rd.

Passport's app makes paying for parking easier by allowing users to purchase, monitor, and manage their parking from the convenience of their phone. To get started, users can register, enter their space number, select their length of stay, and securely purchase their parking using a credit/debit card.

Drivers also have the option to pre-fund their East Hampton Airport Wallet with a minimum amount of \$30 up to a maximum of \$100. Funds can easily be added in \$10 increments. This makes the payment process even quicker for users, especially if they are frequent airport visitors.

"Our goal in launching Passport is to make the transition to paid parking as seamless as possible," said James Brundige, East Hampton Airport Director. "We added Passport's app so that our customers had multiple payment options at their disposal. The new app will save time, provide users with flexibility, and allow them to manage their parking remotely."

Passport signage will provide instructions for downloading and using the app, including the location's zone number, 934. Once parked, users will have the option to purchase daily parking and even extend their parking up to 15 days.

The PassportParking app is free to download from the [iPhone App Store](#) and [Android Google Play](#). Users can also manage their parking online at ppprk.com.
