The Community Preservation Fund Law was enacted to help protect and preserve open and undeveloped lands in the Town of East Hampton and the incorporated Villages, including wetlands, woodlands, agricultural lands, shorelands and the other natural resources of the town; for the purposes of protecting historic places and properties within the town; and for the purpose of providing the town's visitors and residents with outdoor recreational opportunities.

The East Hampton Town Code categorizes a Nature Preserve as any area of land or water owned by the Town which is formally dedicated to being maintained as nearly as possible in its natural condition. These lands are chosen for preservation based on the unique and valuable ecological assets situated within their boundaries. They are protected not only as a means to preserve the land in its natural state, but to create a multi-use recreational resource to be enjoyed by all.
